7. In your opinion, what is the most important aspect to building a college going culture at your school?

Exposure to colleges and programs at various 4 year 2 year and vocational schools/ Change in perception that receiving government assistance is the norm and ok./ That college is affordable without going into debt over your head. Students and their parents need to attend a 2 day workshop which would allow all types of Tuition aid and grants to be pursued. I think also students should get to know students from their own areas who are going to college and I believe this would be encouraging from the aspect of if someone familiar they knew were going to college maybe they could too. I also think it might be to their advantage to get anyone who is a freshman, Sophomore, junior, or Senior in college to come and speak with them about college life./ Emphasis on a daily basis about the advantages of a college education./ Expectations!/ I feel keeping the information available and encouraging the students to plan for their future./ Having all staff members and parents on the same page involving the college process.
