**7. In your opinion, what is the most important aspect to building a college going culture at your school?**

I think the trips to colleges are very beneficial to students. They need to realize that while going to college is a big step, it is a very obtainable one. When students go to a college campus they get excited about the possibilities./ The more opportunities the students have to go out to colleges and universities to explore... the better !!!/ Showing the difference between having a degree and not. Getting kids to understand the importance and the impact it has on their lives./ 1.) Breaking perceived and/or real economic barriers. 2.) Getting students to take responsibility for the process of self and career exploration. 3.) Exposure to options./ Letting students know that they all can go to college or do whatever they want with their future. Sharing information about college, schooling, and skills necessary for their future goals. Mainly, encouraging students to set goals for their future./ All staff needs to be on board with creating a college going culture.

If the schools is conducting an evening event I try to attend. The upper level teachers take on the rolls for GEAR UP./ I have attended community night where we worked in the computer labs helping with information online. Also, encouraging and talking to students about future options./ As the site coordinator, I am always on hand for GEAR UP activities.
