7. In your opinion, what is the most important aspect to building a college going culture at your school?

Showing students that there is money available to make college affordable./ Conveying the importance of gaining additional education beyond high school/ Letting the students know that just because their family can't afford college, it's not out of the question for them. There is money available if they work for it./ Getting the students to look at the big picture and making them aware of career opportunities that exist is definitely are definitely important aspects, but I really believe focusing on getting them on level or above is more important. If students get behind, it is very easy to lose them from ever desiring to do any post-secondary training/education./ To show students it is possible to go to college even if they think they cannot afford, or because they are the first one to go in the family. I try to teach them they can break a negative chain when it comes to college and careers./ Leadership/
